

Mark Adeosun

Research Director – Offshore Energy Services

Since joining Westwood Global Energy Group in 2013, Mark has developed significant experience and expertise in the offshore production facilities, subsea equipment and offshore services market and he is the Research Director for the firm's offshore field development research and analytics business unit.

Mark has worked directly with, as well as advised several clients within the oilfield services supply chain, as part of both analytic and commercial advisory projects. He is also the key point of call for clients using Westwood's SubseaLogix and PlatformLogix data analytics platforms.

Mark holds a BSc degree in Geology and a master's degree from the University of South Wales in Geographic Information Systems.
